

PAMZ | Parkland Airshed Management Zone

Minutes: Issues Response Group Meeting
Date: March 14, 2013
Location: Greenwood Neighbourhood place, Sundre

Members Attending:	Kelly Bauer, AHS Anne Feddema, Public Kevin Warren, Amarak	Kenneth Dahl, AESRD Brian Goliss, Shell	Carol Engstrom, Husky Torey McLeish, Husky
-----------------------	--	--	---

Absent w/ Regrets	Justine Gardener, AER Wayne Johnston, Public	Margo Jacobs, AER Jim McKinley, NRCB	Ila Johnston, Public
----------------------	---	---	----------------------

Bolded items are action items.

- 1) Carol Engstrom convened the meeting at 1340 hrs.
- 2) Those present introduced themselves.
- 3) The agenda was approved as circulated with the addition of PAMZ Satisfaction Survey being added under Other Business.
- 4) The minutes of the August 8, 2013 meeting were accepted by the group.
- 5) The action items arising from the August 8, 2013 meeting were then reviewed.

AESRD will take the lead from hereon in the investigation into the source(s) which is felt to be related to Hamlet of Mirror's Sewage System. **UPDATE** No further actions since PAMZ monitoring done in August 2012. ESRD suspects odours are associated with wetlands south southwest of the site. PAMZ may be able to assist if complaints arise about odours in future.

- 6) Public Issues Identification Meeting

It was agreed that the 2013 Public issues Identification meeting would be held in Didsbury on either May 14, 15 or 16 depending on what other events were happening on these dates. **Kevin will contact Rhonda King (AESRD) to see if she can facilitate, if not, he will try Greg Nelson (AESRD) who facilitated the 2011 meeting in Lacombe. Kevin will look after booking the meeting and catering.**

- 7) New Air Quality Issues Review/Update

Kevin reported on the results of the monitoring at the French Residence near Ferrier. To date no significant SO₂ has been observed with the exception of one high spike that looked spurious.

Kevin has been contacted by a resident who lives 2 km west of Didsbury who has concerns about fugitive emissions of VOCs from Oil & Gas Energy operations in vicinity of her home. These concerns were considered in selection of the 2013 Issues Identification Meeting location. Meeting in Didsbury will allow her to bring forth her concerns in more detail.

8) PAMZ Involvement on Health Impact Assessments

Discussion of PAMZ's role in health impact assessments was an action item assigned to the IRG in 2012. No discussion had taken place at last meeting as the AHS Representative was unable to attend. The item was discussed and it was agreed that at this time with the absence of a Human Health Committee, PAMZ is not in a position to provide input into health impact assessments. It will share its air monitoring data with others who are conducting health impact studies.

Kelly Bauer will contact Merry Tertiak at Alberta Health Surveillance to learn the status of the Sundre-Caroline Community Exposure and Health Effects Assessment conducted in 2007.

Kelly will follow up with WCAS to learn the status of their health surveillance pilot project.

9) Other – PAMZ Satisfaction Survey

Kevin reminded the group about the survey and the importance of members completing the survey.

10) Next Meeting

The next meeting date will tentatively be a teleconference in June if new issues arise, otherwise it will be in August at the Johnston's.

11) Adjournment

The meeting was adjourned at 1500 hrs.
