Date: February 3, 2014
Location: Teleconference hosted by Husky

Members	Kelly Bauer, AHS	Neil Berry, AER	Carol Engstrom, Husky
Attending:	Ila Johnston, Public Tali Neta, NRCB Kevin	Wayne Johnston, Public Glenora Skoreyko, ESRD	Tory McLeish, Husky Kevin Warren, Amarok

Absent w/
Regrets: Anne Feddema, Public Brian Goliss, Shell

Bolded items are action items.

- 1) Kevin Warren convened the meeting at 1333 hrs.
- 2) Those present introduced themselves.
- 3) The agenda was approved as circulated
- 4) The minutes of the August 14, 2013 meeting were accepted by the group with the addition of Adam Pazant of AER as an attendee and changing the location of the May 15, 2013 Public meeting to Didsbury.
- 5) The action items arising from the August 14, 2013, meeting and Nov. 13 teleconference were reviewed.
 - Kelly Bauer will contact Merry Tertiak at Alberta Health Surveillance to learn the status of the Sundre-Caroline Community Exposure and Health Effects Assessment conducted in 2007. **CARRY FORWARD** Kelly will follow-up
 - Kelly will follow up with WCAS to learn the status of their health surveillance pilot project. **CARRY FORWARD** Kelly will follow-up
 - Neil Berry, of AER, provided Kevin with contact info for TAQA North.
- 6) Membership
 - It was the consensus of those in attendance that Torey MacLeish replace Carol Engstrom as the Issues Response Group Chair.
- 7) Air Quality Monitoring Program

- On several occasions there have been some high ambient hydrocarbon episodes observed at the Caroline monitoring station. To date, efforts to identify a source(s) have been unsuccessful.
- The Red Deer Riverside station has recently recorded elevated THC, NO₂ and PM_{2.5} mostly associated with extensive construction activity in close proximity of the station.
- The Martha Kostuch Portable is scheduled to be removed from the Lancaster site at the end of March. Kevin has applied to ESRD for funding to operate it at the site again from July 2014-March 2015.
- The McCoy Station has just completed two months of monitoring at the Everdell sites. The station reported elevated hydrocarbon levels associated with southwest winds on a number of occasions, usually in the night/early morning on colder dates.
- The station began monitoring at a new monitoring site at the old Overgaard residence at the end of January to address concerns about ambient hydrocarbon odors expressed by the Johnston's.

8) Issues Review

- No new issues were identified aside from tanker loading/unloading at the Bonavista battery northwest of the Johnston's (see above) The Johnston's expressed concern that the battery may be operated differently whilst the PAMZ monitoring station is in place.

9) 2014 Issues Response Meeting

- It was agreed that the 2014 Public Issues Identification Meeting will be held the evening of May 13, 14 or 15 in Sundre. **Kevin will make the necessary logistical arrangements and approach Rhonda King about facilitating it.**

10) Next Meeting

- The next meeting date will tentatively be a teleconference on June 10 from 1000-1130. **Kevin will make the necessary logistical arrangements.**

11) Adjournment

- The meeting was adjourned at 1444 hrs.
